About Me

I'm Utchikanna, from Tenkasi. After completing diploma, I worked as a CNC machinist for 3 months at TAFE. However, I decided to quit my job and pursue my interest in Information Technology. I started learning HTML, CSS, and JavaScript independently using online resources. That is when my friend suggested FSSA to me. At the academy, I strengthened my knowledge of HTML, CSS, and Javascript and learned MySQL and Java. Using these, I have built a website 'Cinephile'.

I aim to become a successful software engineer. I've already started to earn some certificates for it.

Project

Cinephile [Full Stack]

This platform serves as a comprehensive hub for users to discover movie and TV show information. It empowers them to rate their favorite content and engage in discussions, It's a fun place for people who love movies and shows.
